

Healthy Rivers Partnership

Give back to the rivers and streams you love

WASHINGTON
WATER TRUST

[washingtonwatertrust.org](http://www.washingtonwatertrust.org)

Build a sustainable freshwater future

We all depend on healthy rivers and streams. Commonly thought of as a water-rich state, Washington's freshwater is at risk from overuse, climate change, and increasing demand. Rivers and streams need water year-round to support thriving salmon populations and communities.

Healthy Rivers Partners are businesses and organizations that support Washington Water Trust in restoring and protecting water in rivers and streams from the San Juans to Walla Walla.

Invest in water solutions that work

WWT keeps rivers flowing year-round using collaborative market-based solutions, including:

- Water rights assessments and transactions
- Groundwater mitigation and water banking
- Irrigation source switches and efficiencies
- Special drought-year conservation initiatives
- Sustainable alternative water sources

WWT projects have restored 5.7 billion gallons of water to more than 1,000 river miles across Washington.

"The business community plays an important role in stewarding Washington's freshwater. Environmental Science Associates works in the same watersheds and communities as WWT restoring habitats, developing salmon recovery plans, and conducting inventories for our clients. Our contribution to WWT through their Healthy Rivers Partnership program furthers our commitment to restoring these watersheds and aligns with our mission as a company."

- Susan O'Neil, ESA Senior Conservation Planner

Partnership Levels

WASHINGTON
WATER TRUST

washingtonwatertrust.org

Join the nonprofit streamflow conservation leader

Chinook Level

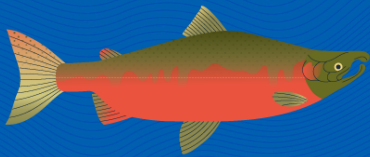

\$10,000+

- Feature in the WWT e-newsletter and blog
- Linked logo on the WWT website and in the annual report
- Opportunity to have WWT staff present or lead a coffee chat
- Linked logo and acknowledgement in WWT news emails
- Logo and acknowledgment on WWT social media
- Opportunity to have a booth at a WWT event
- Acknowledgement at WWT events

Coho Level

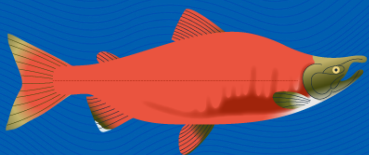

\$5,000-\$9,999

- Linked logo on the WWT website
- Logo in the WWT annual report
- Opportunity to have WWT staff present or lead a coffee chat
- Logo and acknowledgement in one WWT news email
- Group acknowledgment on WWT social media
- Acknowledgement at WWT events

Sockeye Level

\$1,000-\$4,999

- Linked logo on the WWT website
- Logo in the WWT annual report
- Opportunity to have WWT staff present or lead a coffee chat
- Name acknowledgement in one WWT email
- Name acknowledgment on WWT social media
- Acknowledgement at WWT events
